## MANUFACTURING PROCESS

**MOLDER:** Our Weinig CNC molders are considered the most reliable molders available on the market. Combining the accuracy of our molders with our grinding capabilities allows us to produce a smooth well blended handrail.

**GRINDER:** We use a 5 axis CNC Schneeburger grinder to make and regrind our handrail tooling in-house. The high precision of this machine assures our customers that their handrail will stay true to their exact size and dimension from one run to the next.
